

the nordic walk & rest seat™

The lightweight, Swedish-made visitors seat for museums, art galleries, event companies etc.

**Sturdy to sit on.
Easy to carry around.**

High sitting position.
Tubes of hardened aluminium.

**Easy to handle
and store.**

Easy to maneuver trolley for 10 seats.
Rotatable, lockable wheel.

**Hardened aluminum
with canvas seat.**

Have your logo printed on the seat.
Reinforced non-slip rubber feet.

A mere 1,250 grams – that is how little the Nordic Walk & Rest Seat weighs. Yet the seat is very sturdy. It is also equipped with non-slip rubber feet – just in case.

The high sitting position makes the seat easy and comfortable to use also for the elderly. When folded it can be used as a walking support, or just for leaning on when standing still.

Thanks to its low weight, the Nordic Walk & Rest Seat is as easy for your staff to handle, as it is comfortable for your visitors to carry around. The handy trolley can be used for moving the seats as well as for storing them. The trolley is easy to push around, and one of its three wheels is rotatable and lockable.

Our foldable seat is made of hardened tubular aluminium, with black canvas seat as standard. Painted tubes are offered as an option, as well as canvas seats in alternative colours. You can even order the canvas seat with your logotype printed on it.

You may purchase the Nordic Walk & Rest Seat in sets of 10 including 1 trolley, or any number of seats without trolley. For prices and further information, please visit our website **nordicseat.se**

What do Maxxi Museo Nazionale in Rome and the Vasa Museum in Stockholm have in common?

Answer: They both offer the foldable Swedish-made visitors chair from Nordic Seat to their visitors. As do Maxxi Museo Nazionale in Rome, Prado in Madrid, The Glyptotek in Copenhagen and Staatliche Kunstsammlungen in Dresden. Amongst another 100+ museums, art galleries event companies and others all over Europe.
